THE PROCEEDINGS OF CONGRESS.

Contested Election Cases Occupy Both the Senate and House, but No Final Action Taken-Prospects of the World's Fair Bill-Other Dispatches.

WASHINGTON, April 12.-In the senate yesterday, after the transaction of routine business, consideration of the Montana election case was resumed and Mr. Evarts spoke in favor of the Republican claimants. Discussing the powers of the territorial canvassing board, in which, he said, there were no limitations imposed by the statute in words. By that he meant, he said, that its powers were unlimited within the sense that it belonged to the phrase to which it was applied and to the subject to which it was applied. He criticised the governor of the state for placing a janitor at the door of the court house assembly, to admit only such persons as were entitled to go in, thus making him, for the occasion, the judge of who were and who were not elected as representatives.

Mr. Gray defended the governor of Montana from this criticism, and asserted that the only direction given to the janitor by the governor was to admit every one who claimed to be a member of the house of representatives.

Mr. George, criticising the action of the Silver Bow county canvassers in throwing out the votes of Precinct No. 34, asserted that there was not a Republican senator who, in the face of the American people, would say on his responsibility that the board had the right to do what it did. No other part of the iniquity could have been transacted. He asserted that the body calling itself the legislature of Montana had not passed a single law, and that if "this honorable court" should seat Sanders and Powers, it would, by that action, give life and validity to "the only thing which that miserable assembly, begotten in fraud and conceived in iniquity, ever performed."

Mr. Teller-If there was no legislature in Montana. I should like to know on what theory and hypothesis the minority of the committee says that Clark and Maginnis were elected.

Mr. George—I am not a part of the minority, but I think that the differences between the two sets of claimants is just simply this: Neither has a legal title; neither represents the legislature; but Maginnis and Clark represent the honest vote of the people of Montana, and, for all purposes of life and death, it is far better to represent the honest vote of the people of Montana than to have seats in the senate as the beneficiaries of this fraud.

Mr. Hoar gave notice that on Monday he should ask the senate to remain in session until the Montana case was dis-

Mr. Hawley, from the select committee on the Quadro-centennial celebra-tion, reported back, with amendments, the house bill for the world's fair at Chicago, and said that if anything was to be done in the matter it should be done at once. He said he hoped that the matter would not lead to any serious debate, and hoped to have it taken up and passed on Monday.

After an executive session, the senate at 5:55 adjourned.

In the House.

WASHINGTON, April 12.-In the house, Mr. Lacey, of Iowa, called up the contested election case of Waddell vs. Wise, from the Richmond, Va., district, and made an argument in favor of Mr. Waddell, the Republican contestant.

Mr. O'Ferrell, of Virginia, supported the resolution of the minority of the committee, which declares the seat vacant. After reviewing the case, he branched off into a discussion of the race question, asserting the superiority of the Caucassian race, and criticising the Republicans of the north for having done no political favors for the colored

Mr. Morse, of Massachusetts, denied this, and said that colored men had frequently sat in the Massachusetts legislature.

Mr. Greenhalge, of Massachusettes, and Mr. Bergen, of New York, spoke in favor of the contestant, and Mr. Crisp, of Georgia, gave an able presentation of the case of Mr. Wise, the sitting member from a legal standppint.

Mr. E. B. Taylor, of Ohio, discussing the race question, asked if the condition of affairs at the south could always remain so, and the country exist. He would rather have a Democratic house honestly elected than to have affairs as

they stand.
Without action on the case the house, at 5 o'clock took a recess to 7:30 p. m. the night to be for the consideration of private pension bills.

Pan-Americans Entertained.

Washington, April 12.—President Harrison, accompanied by the members of his cabinet and the delegates to the Pan-American conference, reviewed the regular troops and the District National guard on the Monument grounds yesterday afternoon. About 3,000 soldiers passed before the president and the distinguished party accompanying him. The weather was beautiful, and the review attracted a great crowd of people to the spacious grounds south of the president's mansion.

At the conclusion of the review the Pan-American delegates drove to the Arlington hotel, where the ladies of the Silk Culture association, of Philadelphia, presented to each country represented in the conference a beautiful flag, made of

silk grown in the United States. The Pan-American conference yesterday discussed the report of the commit- here, for Buffalo and other lake ports, tee on banking, and received the report stood away.

The World's Fair Bill.

WASHINGTON, April 12. - Senator Hawley yesterday, from the select committee on the world's fair, reported favora-bly to the senate, with amendments, the house bill providing for holding the world's fair.

The senate committee amended Section 8 of the bill by adding the following: The president is hereby authorized and empowered to hold a naval review in New York harbor in April, 1893, and to exend to foreign nations an invitation to send ships-of-war to join the United States navy in rendezevous ampton roads and proceed thence to sail review.

The Physicians Expect His Death at Any Moment.

Washington, April 12.-Mr. Randall grew gradually weaker throughout yesterday, and early in the evening his physicians reported him as scarcely alive. During the evening he continued to sink slowly, and at midnight the doctor in attendance said he did not see how he could possibly live through the night.

At 2 a. m. the news from Mr. Randall's bedside indicated that death at any moment would not surprise those watching about him.

NOT THE BENDERS.

The Suspects Released, There Not Being Evidence Erough to Hold Them.

CHICAGO, Ill., April 12.—Mrs. Griffith and her daughter, of Niles, Mich., alleged to be the noted old Mrs. Bender and Kate Bender, were released yesterday on habeas corpus proceedings brought by their attorney. They introduced the affidavits of the matron of the Michigan penal institute, showing that Mrs. Griffith was confined there for manslaughter at the time the Beuder crimes were committed.

Affidavits were also introduced, proving an alibi for the daughter. County Attorney Morrison, representing the state, introduced the testimony of a Mr. Stewart, who swore positively that Mrs. Griffith and her daughger were the Benders. At the conclusion of the case Judge Collins ordered the release of the prisoners. The county commissioners purchased tickets for Mrs. Griffith and her daughter, and they were sent back to Niles yesterday.

A Woman Mysteriously Murdered. HURLEY, Wis., April 12.—The body or Lotta Morgan was found in the rear of Lvea's saloon at an early hour yesterday morning, with a terrible gash over the Thursday night, going out by the back door, and was either struck down as she passed behind the saloon adjoining, or was enticed back again and afterwards murdered. The affair is shrouded in mystery, there being not the slightest clew to the murderer. The deed could not have been committed for robbery, as her elegant diamond rings were still on her fingers, and over \$20 was found in her dress pocket. The woman has lived in Hurley for four years and was not considered a tough woman of her class.

Is Evraud in Mexico?

CITY OF MEXICO, April 12.-Much excitement has been caused here by the reported arrest, at Chilpancingo, of Eyraud, the murderer of Gouffe, of Paris. It appears that a Frenchman, who claims to be Baron Leopoldo Andres Paulhan, was taken in custody at Chilpancingo upon suspicion of being Eyraud. He was afterward released, but the authorities are still suspicious and have him under surveillance. The baron claims to be en route to Acalpulco to take a steamer for Panama.

Lightning on a Clothes Line.

OWINGSVILLE, Ky., April 12.—During a thunder storm Wednesday afternoon Miss Lida Flood was struck by lightning at her home a few miles east of here. The young lady was taking clothes from a wire line, when the lightning ran down the wire and jumped off onto Miss Flood's hand, and running up to her shoulder and down her breast and stomach, burning her in a fearful manner. This, with the shock she received, renders her condition critical.

The iron industry has advanced too rapidly -the expected setback has begun. The production for the quarter may be estimated at 2,250,000 tons, against 1,900,000 last year, and stocks on hand are accumulating. Prices are lower. The business in bar iron is better, with no change in price; plates are moving at very unsatisfactory prices and structural iron is not so active as makers wish. The threatened strikes in building trades will affect this branch. Coal is still stagnant.

The speculative markets have been more active, with a higher range of prices on the whole. The average of all prices for commodities is but a shade higher than a week ago, some manufactured products having declined.

Reports from other cities are more generally favorable than is usual. At the south, outside the direct effect of floods, trade is good and less time is asked than usual.

The monetary situation does not threaten. The Bank of England has reduced its rate to 3 1-2 per cent., and the United States treasury has paid out during the week \$3,100,000 more than it has taken, but foreign exchange has adforeign purc ties gold exports may occur, but for sometime to come the money market is

Edward Mason, pastor of the Progressive Brethren church, is a confessed forger and robber. He left home April 3, ostensibly to preach a funeral sermon at St. Louis, but a letter to his wife received yesterday relates that he is in New York, and confesses that he has robbed her of her little fortune and victimized several persons at Dayton of various sums of money through forgeries. He does not say what he did with the money. Mrs. Mason is prostrated by the blow.

If Smith is acquitted here he will be taken to Lamar county for trial on four indictments for robbery and grand larceny. He has a long criminal record.

ESCAPED FROM SING SING.

Two Convicts Enjoy Freedom for a Short Time, But Are Recaptured.

Sing Sing, N. Y., April 12.—At 3 o'clock yesterday afternoon Deputy Warden Connenghton, of the state prison, saw Leander Lee, one of the guards, crawling down the stairs in the prison covered with blood, his clothing torn and his hand tightly bound with rope. He had been assaulted by some of the convicts and an escape made from the prison. Kedper See had taken James Kelly and Michael Feeney, two convicts, to clean the old female prison, prior to locking the prisoners up for the night.

As they entered the building Kelly saw NEW YORK, April 12.—R. G. Dun & August Clint, the only convict in the Company's weekly review of trade says: With larger tonnage in motion that in the door. Kelly and Feeney then went to Keeper See's room and donned two suits of See's clothing, and, going down stairs, unlocked a side door and made

Kelly served twenty years in Clinton prison and, while there, he attempted to kill Keeper Gray. He is about 48 years of age, and has served more than half his life in prison.

DANVILLE has a new Council, and a paper printed in that place says: "The new Board will be called upon to choose a Mayor, Recorder, Town Attorney, City Clerk and Chief of Police." Respectfully referred to Brother cellent, and calculated to do much good. Marsh for a yawp.-Republican.

Maysville shouldn't pattern after Da ville. There are several matters connected with Danville's new charter that are not very commendable.

Some Republicans want to tax cotton seed oil, but they don't say a word about taxing lard. Evidently the big porkpackers are behind this scheme. Let's have fair play. The cotton seed oil industries of the South shouldn't be taxed to benefit a few rich men of the West. There has been too much of this taxing one class for the benefit of another in this country already.

THE Republican leaders at Washington are not anxious to have the McKinley Tariff bill debated very much. No doubt ningsland. they would like to sneak it through Congress without any discussion at all. They sister, of Speaker Meyer are the guests don't want the iniquitous features of the of Hon. J. M. Frazee. measure exposed, but the Democrats will attend to that. They will see that the matter is fully discussed and laid before ter studying violin music. the people of the country.

THE opposition to the election by the Council of certain city officers does not stand on tenable ground. A few years ago, when this was done, city elections were characterized by sobriety and good order. With the election by the people-the "dear" people, the bully bums, for the large majority of reputable citizens never vote and the poll books will prove it-there was a return to drunkenness and debauchery .- Republican.

Your talk about "bully bums," Brother Davis, is all bosh. The people have been electing the city and county officials for years, and the officers so chosen have, with few exceptions, been noted for their ability and their faithfulness and efficiency in discharging their duties. By the way, council has been chosing Depntv Marshals a year or so, and how many of them have been before committees of investigation already?

SUPPOSE some of those who are clamoring against the election clause in the proposed new charter take the troubte to examine the pollbooks of any election for the last balf dozen years. It may surprise them to learn that a large and most respectable majority of citizens do not vote, and that, as the Republican stated last week, our rulers are virtually chosen by the purchasable portion of the voting element. It is the good citizen's province to remain away from the polls if he pleases; and if he has cause to "kick" he should go out into the cowlot and kick himself .- Re-

That's too thin an excuse for wanting to take the election of most of the officers out of the hands of the people. Adopt a good election law, one that will keep ward politicians and bummers away from the polls (and that's the kind of law every city should have) and the citizens will all be found taking an active interest in the selection of the officials.

THE COMMERCIAL CLUB.

The Meeting Last Evening Well Attended-The Barrel Factory Enterprise.

The meeting of the Commercial Club last evening at the Council Chamber brought together a good crowd of leading citizens of this city.

President Thomas was in the chair. He opened the meeting with a few excellent remarks, congratulating the people of Maysville on the organization of the club. It had grown to a membership of one hundred and twelve, but he hoped the number would be increased to two or three hundred. He corrected an impression that had sprung up the past week in reference to the club subsribing stock to any enterprise. That was not the object of the organization. The club does not take stock in any enterprise as a club, nor are the members required to do ness. It passed over one hundred so. Evicted Irish Tenants Building Up a Town.

OVER EIGHTY HOUSES FINISHED.

Great Preparations Made for the Formal Opening of the New Settlement-Many Noted People to Be Present at the Festivities, Which Will Close With a Brilliant Banquet-Other Foreign News.

LONDON, April 12.—The formal opening of the New Tipperary, the new Irish town established by the tenants evicted from the Smith Barry estate, has been further postponed in order to put the finishing touches on the most important of the buildings. Already eighty resident's buildings have been completed, for the opening of the market are very elaborate. The building is literally covered with evergreens and dowers.

Among the speakers who are to address the inhabitants of the new town are William O'Brien, Michael Davitt, Sir Thomas Esmonde and several other Nationalist leaders. Mr. T. D. Sullivan, ex-lord myaor of Dublin, has written a poem for the occasion, which it is expected he will read himself. Mr. Parnell has been elected an honorary member of the new town, and at the formal settlement a few days hence, a large number of Liberal and Nationalist lords and commoners will be present. In addition to the popular festivities, on the occasion of the addition of the new star to the Irish constellation, a banquet has been provided for the entertainment of 500 distinguised guests.

Coeval with this spirit of enterprise, the convention of Irish landlords sitting at Dublin are exhibiting a spirit of unrest and opposition to the land policy of the government as expressed in Mr. Balfour's purchase bill. Not only does their denunciation of the measure deelare the belief of the convention that it is injurious to the interests of the landlords, but it asserts with equal vehemence that it fails in any respect to relieve the tenants from the hardships they claim to be laboring under.

This declaration is singularly at varialists that the bill is designed to operate in the interests of the landlords solely, and it is quite as radically opposed to the claim of the ministry that the object of the measure is to confer benefits upon the tenants, far greater than any contemplated by Mr. Gladstone's scheme. In this view it would seem that the bill

At the agricultural academy at Moscow fiftyfive students have been sent home and three have been expelled, the St. Petersburg university has sent home twenty and expelled two, the technological institute has sent home twenty-three and expelled two, the school of forestry sent home thirteen and expelled two, and fifteen were sent home and two expelled from the veterinary school at Charkoff.

Panie at a Church Fire. LONDON, April 12.—During the celebration of mass in the Catholic church at Bronischewitz, Hungary, yesterday, the edifice caught fire and was burned to the ground. The congregation became panic-stricken, and choked the exits so that a large number of persons must have lost their lives but for the presence of mind of villagers, who rushed to their assistance and set the stream in motion. Two persons were killed and several injured.

Fixing the Frontier.

LONDON, April 12.—The Portuguese government has sent a commission, headed by Col. Machado, to meet the Transvaal delegates and definitely fix the frontier of the Delagoa region. Although the Delagoa railway was seized by Portugal as a pretext to have the frontier fixed, it is known that France will blockade portions of the slave coast in order to prevent the transportation of arms into Dahomey.

Rioting Renewed in Vienna.

VIENNA, April 12. - The disorders which prevailed in the Jewish quarter a few days ago, were renewed in the Favoriten quarter yesterday. The riot was of short duration, however, and was promptly quelled by the police and a detachment of Hussars. The mob was dispersed, and a number of the ringleaders were arrested.
